PROFILE

I am a graduate of the Faculty of Informatics Engineering with over **four years** of experience in developing mobile applications using the **Flutter** framework. Additionally, I have **more than three years** of experience in administrative roles and **two years** of experience working with servers and backend development. Currently, I am pursuing a **Master's degree in Software Engineering**. My expertise includes **system analysis, problem-solving, and designing efficient solutions** to optimize software performance and functionality.
