OBJECTIVE

To leverage my expertise as a software engineer and mobile developer to design, develop, and deliver innovative, high-quality mobile applications and software solutions that meet user needs and drive organizational success.

SKILLS & ABILITIES

- **Technical Skills**: Dart, Flutter, Python, Dio, REST APIs, State Management (BLoC,Cubit ,Provider) .
- **Leadership & Management**: Team Coordination, Mentorship, Task Prioritization.
- **Soft Skills**: Communication, Project Management, Problem-Solving, Time Management.
- **Bilingual**: English, Arabic.

EXPERIENCE

2022-present

Mobile Developer, Smart Software Solutions

Worked as a Mobile developer at smart software solutions using Flutter ,native and java to create responsive and user-friendly apps that interacts perfectly and safely with the back-end. I worked on the following projects.

1- Project Management System

Create responsive and user-friendly apps to allow the ministry employees to manage the ministry projects with the ability to view reports and charts.

2- Tenders

 built with Flutter. That organizes and presents regular sessions, secret sessions, tenders and decisions of the Ministry of Interior in Qatar, with the ability to add notes.

3- E-commerce System

Create responsive and user-friendly app to allow the users

Buy sweets and pay by credit or cash.

4- Car Rent

Create responsive and user-friendly app to allow users to rent cars online and manage the contracts and payments.

2022- present	**Coordinator and Coach, Syrian Scientific Olympiad**

In this role, I have been at the forefront of preparing and mentoring students for competitive excellence in various scientific disciplines, fostering a culture of innovation and teamwork.

1. Organized and conducted training for over **600 students** across mathematics, biology, chemistry, physics, and informatics, guiding them in programming and competitive problem-solving.
2. Managed logistics and communication for the Olympiad's local stage, ensuring smooth coordination among students, coaches, and administrators
3. Led campaigns connecting current Olympiad participants with alumni, fostering a supportive and engaging community.
4. Successfully mentored students who achieved **five bronze, two silver, and one gold** medals in programming competitions.

2021- 2024	**Team Leader, RBCs**

As a Team Leader, I was responsible for managing a dynamic team of engineers, ensuring seamless collaboration and effective project execution in the field of Smart Search Algorithms.

1. Led a team of five engineers on courses focused on **Smart Search Algorithms**.
2. Conducted daily stand-ups, assigned tasks, and provided guidance to ensure project milestones were consistently achieved.
3. Fostered a collaborative environment, encouraging team innovation and problem-solving.

EDUCATION

June 2024	**Faculty of Information Technology Engineering at Damascus University**

B.Sc. in Software Engineering
2019–2024 | GPA: 71/100

Aug 2023	**Graduation Project: *Car Management System***

Achieved a **93% score** and was selected to participate in the **Faculty of Mechanical Engineering Exhibition**, where it won **first place** for innovation and quality, Developed a predictive maintenance .

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

1. **Olympiad Medals**: Coached students who achieved bronze, silver, and gold medals in national programming competitions.

2. **Volunteer Campaigns**: Organized campaigns to mentor students for Olympiad success, building a strong programming community.

3. **Syrian Scientific Olympiad Coordinator**: Managed logistics and training for over 160 participants across five subjects.

4. **International Informatics Olympiad in Teams**: Practicipated as a Proctor and a member of the organizing committee.

COMMUNICATION

- **Public Speaking**: Delivered workshops and presentations to large audiences, including students, colleagues, and professionals, effectively conveying complex concepts in accessible terms.

- **Cross-Cultural Communication**: Engaged with diverse groups in educational and professional contexts, demonstrating adaptability and respect for different perspectives.

- **Conflict Resolution**: Mediated discussions and resolved misunderstandings among team members, maintaining a positive and productive working environment.

- **Team Collaboration**: Facilitated effective communication among team members during project development and Olympiad coordination, ensuring alignment and efficiency.
